Have Fun - Life’s Too Short!
Bonaire offers divers access to some of the world’s top dive sites. Put on your mask, slip on your fins, and get ready to explore the exotic underwater world that is Bonaire. Swim alongside brilliantly colored fish and exotic marine life while you explore some of the Caribbean’s most colorful coral reefs. Bonaire’s entire coastline has been declared a marine sanctuary so that you’ll always be able to enjoy the pristine beauty it has to offer.

We will be staying at the newly remodeled Divi Flamingo Beach Resort which is conveniently located just a short walk south of town and diving with Divi Dive Bonaire. You will experience some of Bonaire’s best boat diving sites with us in the morning, dive the resort’s house reef, Calabas Reef, just 20 yards in front of our resort in the afternoon and at night if interested and have 24-hour access to tanks to explore some of Bonaire’s other easy to dive shore dives.

Palau

Wild and beautiful, one of the best diving destinations in the world

April 15 - 22 and or April 22 to 29, 2017

Palau offers some of the best snorkeling and diving in the world! Our group will see manta rays, a varieties of sharks, amazing reefs, schools of colorful reef fish and WW II planes and shipwrecks. We will dive world famous dive sites like Blue Corner which is ranked “Top dive site in the Pacific.” The German Channel, made famous for its large schools of jacks and barracudas, its shark activity and its manta cleaning stations. We’ll visit one of the top drift dive sites in the world, Ulong Channel and marvel at its beautiful coral gardens. Our adventure will also includes a visit to Chandelier Cave for a dive among beautiful, colorful stalactites that you will not soon forget and a trip to Jellyfish Lake where we can swim with millions of amazing stingless jellyfish.

Palau is located approximately 500 miles southwest of the Philippines, and is made up of at least 200 islands, many of which are uninhabited. The clarity of the sea around Palau offers incredible views of ocean life for most of the year, especially in April. Three major currents meet in the waters surrounding Palau, which results in over 1500 species of fish and over 700 species of corals and sea anemones. Recently, Palau became a UNESCO World Heritage Site because of its biodiversity and its amazing concentration of marine life.

To dive in Palau is an experience that you will never forget. Sheer walls dropping down hundreds of feet are decorated with colorful and diverse sea fans and coral. Along the wall, fish of every size and color dart in and out of crevasses, while sharks, turtles, and other pelagic species cruise the currents. Palau offers every diver memorable and lasting impressions. Many divers return to this amazing paradise over and over again to savor the beauty and diversity of Palau’s waters, its people, and its islands.
